Embracing Change & the Spirit of Possibility

Aug. 16, 2024

9 a.m. - Noon

Helios Education Foundation | 4747 N. 32nd St.,
Phoenix AZ 85018

(Coffee & Check-In beginning at 8:30 a.m.)

They say change is life's only constant. And it's no secret that the rate of change is increasing exponentially. Join us to explore two essential leadership skills - possibility thinking and change management - and their inextricable partners: risk and creativity (and sometimes failure). How do we embrace change with a spirit of possibility? And how do we further prepare ourselves as business & education leaders to thrive in this world of change and prepare our students to do the same? We'll also kick-off our year-long conversation on the future of united business and education leadership in Arizona with a roundtable-style discussion that will engage all attendees.

About Member Plus-One Events

The broader our Coalition, the greater our collective influence and impact will be. Members are invited to attend this event at no cost, and each member organization is encouraged to bring one guest, whose organization is not already a member (also at no cost). Registration is required for all individuals from ABEC member organizations who will be attending, as well as their guest. Your support will help make this growth possible.
